

# Classlink LTI v1.3 (OIDC)

## SSO Information

Dear Vendor,

Our school is going to add your app as an LTI v1.3 SSO app through ClassLink. Please provide me with the following information:

ClientID (generated in the Partner Portal)  
OIDC Login Initiation URL  
Target Link URL  
LTI Message Type (default is LtiResourceLinkRequest)  
Person SourcedID  
Role  
With PII  
Any Input Fields that I would need

Here is information about our school system and ClassLink:

The OpenID Connect (OIDC) discovery endpoint is  
<https://launchpad.classlink.com/.well-known/openid-configuration>

The OIDC discovery endpoint contains the following:

- o Issuer ID: <https://launchpad.classlink.com>
- o OIDC URL: <https://launchpad.classlink.com/oauth2/v2/auth>
- o JWKS URL: <https://launchpad.classlink.com/oauth2/v2/jwks>

Our SchoolDeployment ID (Tenant ID) is **xxxx**. (Not all vendors require a Deployment ID, but it's best to include it in case it is needed.)

Thank you so much for your help with this,

Insert Your Name and Contact Information
